Science in St. Louis is a partnership between SLCCL, the Photosynthetic Research Antenna Center (PARC), Washington University's Graduate School of Arts and Sciences, and The Academy of Science of St. Louis. Science in St. Louis is based upon work supported as part of the Photosynthetic Antenna Research Center (PARC), an Energy Frontier Research Center funded by the U.S. Department of Energy, Office of Science, Office of Basic Energy Sciences under Award Number DE-SC0001005. We also would like to thank the National Science Foundation for support awarded to Kaitlyn Faries through the Graduate Research Fellowship Program under Award Number DGE-1143954.

St. Louis County **Library**
