

## Community Mapping Worksheet

**Instructions:** Working alone or in collaboration with others, choose eight categories and write them in the blank circles below. Common categories include the business community, K-12 schools, local government, faith groups, library groups (e.g., board, Friends of the Library), nonprofits, and “other.” However, you should brainstorm categories that are relevant to your community or your specific needs. Once you have your categories filled in, write the names of individuals and groups and how they intersect with the library next to each circle.
