

Nature Models

Recreate nature!

<https://www.exploratorium.edu/tinkering/blog/2015/04/23/making-paper-flower-models-for-nature-bots>

Supplies

1. Colored tissue paper
2. Pipe cleaners
3. Scotch tape
4. Scissors

What to do:

1. Take a look at the colors of the tissue paper and pipe cleaners in your Creativity Kit.
2. Then go outside and look for objects in nature that are similar in color to the tissue paper and pipe cleaners.
3. Are there flowers, leaves, sticks, buds that are OK for you to pick? Ask a grown-up first.
4. Bring the natural materials back home and use your watercolors or crayons to recreate them on paper. (You can draw them in pencil first if you'd like.)
5. Then use the tissue paper and pipe cleaners to make a 3-D representation of the flower and stem or whatever objects you found.
6. Take a photo of your creation and post it on the Stair District Library Facebook page.

Alien/Martian/Extraterrestrial

Sticker fun!

<https://www.exploratorium.edu/tinkering/blog/2015/04/23/making-paper-flower-models-for-nature-bots>

Supplies

1. Sticker sheets
2. Paper

What to do:

1. Make a one-of-a-kind out-of-this-world space creature using the face sticker sheets.
2. Have a photo taken and post it on the Stair District Library Facebook page.
