Our favorite and fun transportation activities for preschoolers!

Using vehicles that you already have for transportation activities for preschoolers:

2. Tape a maze on your floor and add some numbers. Have your child drive and count their way through the maze.
3. Draw out a big maze on the driveway and drive through it!
4. Set out some flour to explore and play with. Before long the vehicles will be added in for some hauling and track making, too!
5. Build a city of blocks and drive through it.
6. Stack block towers, but all the blocks with a dump truck or semi. Count the towers as you’re building them!
7. Paint with Vehicles! Add some trucks, tractors, cars, whatever vehicles you have to some paint and paper and compare the tracks that they make! (Make it bigger and take it outside!)
8. Make a learning activity for counting with grain bins and tractors. Use marshmallows to haul and count!
9. Simply add a few vehicles to some play dough and make a construction site. Here is my favorite way of how to make homemade play dough!
10. Be inspired by a favorite book about vehicles and act it out! (such as The Little Blue Truck book. See more vehicle books that we love below!)
11. Reuse bubble wrap for a road. Drive some big vehicles on it to hear the Pop!
12. Make and indoor activity course and use a big vehicle to take through the course as they do their activities.
13. Put together an ice investigation to see if salt or sand makes the ice less slippery for vehicles driving on it.
14. Make a ramp from a cardboard box and test out how the cars and trucks make it down.
15. Use wagons, or semi trailers, or even dump trucks and experiment to see how much water each vehicle holds.
16. Convince your child to clean up! Have a car wash for the toy vehicles—with a learning twist!
17. Tape out a road on the floor and drive, drive, drive!
18. Use pintables to sort your own emergency vehicles!
19. A color coded parking lot to match your own toy vehicles to.
20. A very fun sensory activity, a shaving cream car wash.
22. Use a box to extend train play, make The Sports Enough Tunnel. Another sensory activity that might be better than the sandbox, cloud dough with vehicles.
23. Counting with trucks! Use dump trucks to see how many dominoes it can hold then count them! Monster Smash! Add crayons and monster trucks to a cardboard box and create your own Monster rally arena!
