Science on Tap: How Loudoun Public Library Brought Cutting-Edge Science to the Public

August 26, 2020

Welcome and Announcements

- Today's webinar is a presentation of ALA's Public Programs
 Office, with support from ALA's Cultural Communities Fund
 (www.ala.org/CCF)
- Visit <u>www.programminglibrarian.org</u> for more online learning sessions, programs ideas and grant announcements

About the Classroom

Microphones

Only our presenters have microphone access.

Questions?

Type them in the chat box! There will be time at the end for questions.

Tech Issues?

Send a message through Q&A.

Today's Presenters

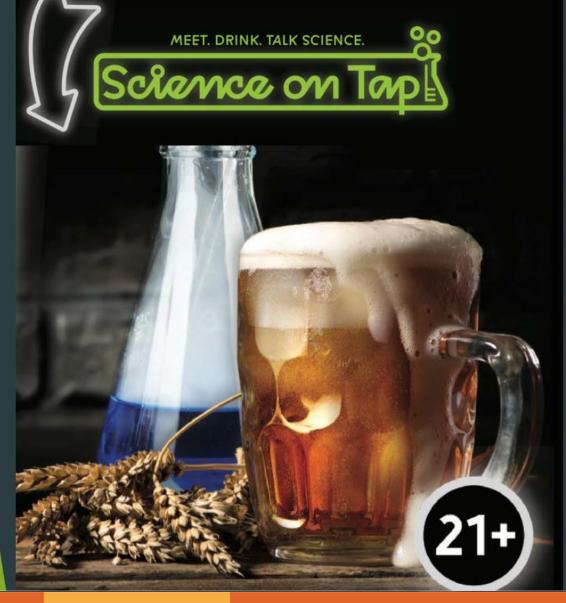

Susan VanEpps

Division Manager for Programming and Community Engagement Loudoun County Public Library Leesburg, Va.

Lorraine Moffa

Program Coordinator
Loudoun County Public Library
Leesburg, Va.

Bringing the library to the community

A partnership program with Loudoun County Public Library, Howard Hughes Medical Institute Janelia Research Campus, and Old Ox Brewery

ORIGINS

Science Café Announcement

Free and open to public

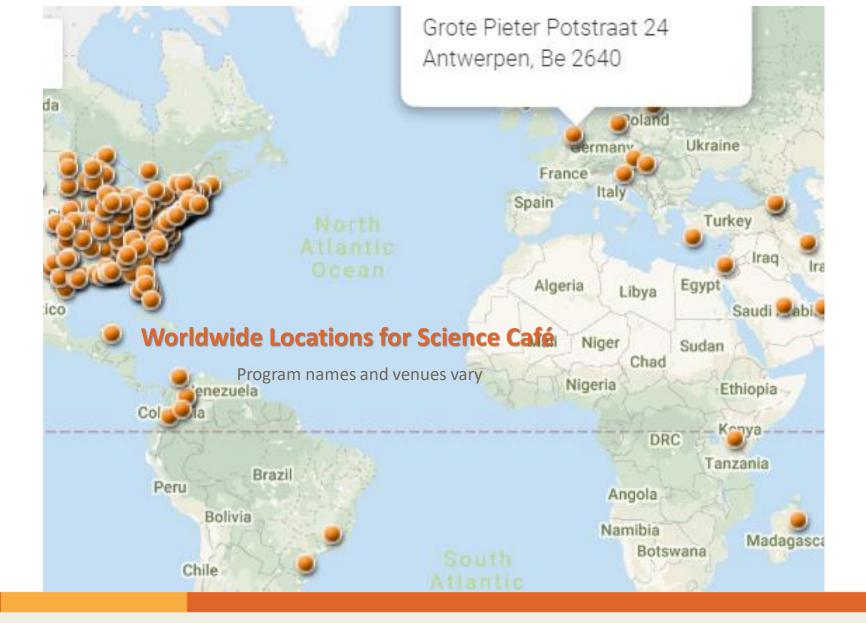

Tuesday, September 19, 2017

"Bipedal Locomotion from Robots to Ostriches: An Optimization Story"

Speaker:

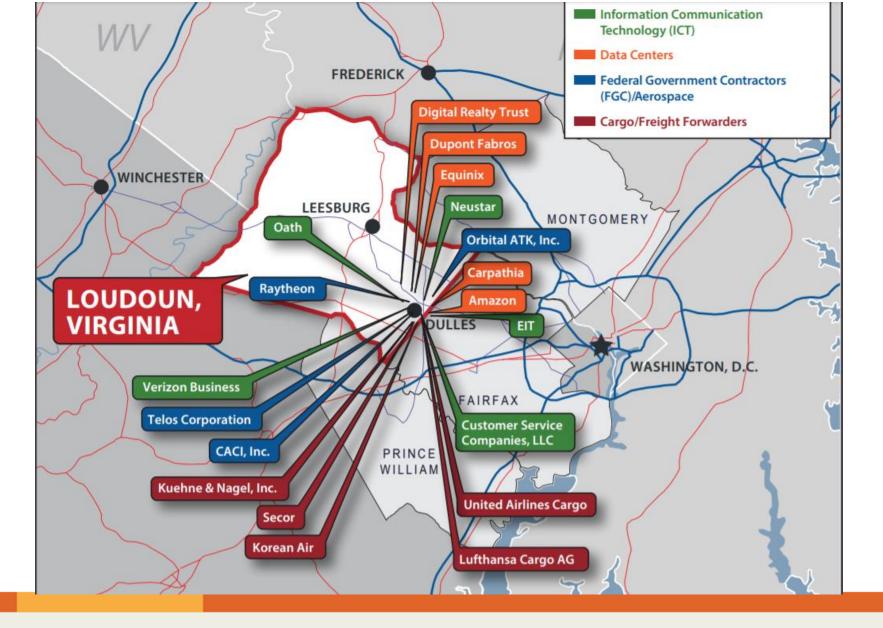

Dr. Christian Hubicki (Georgia Institute of Technology)

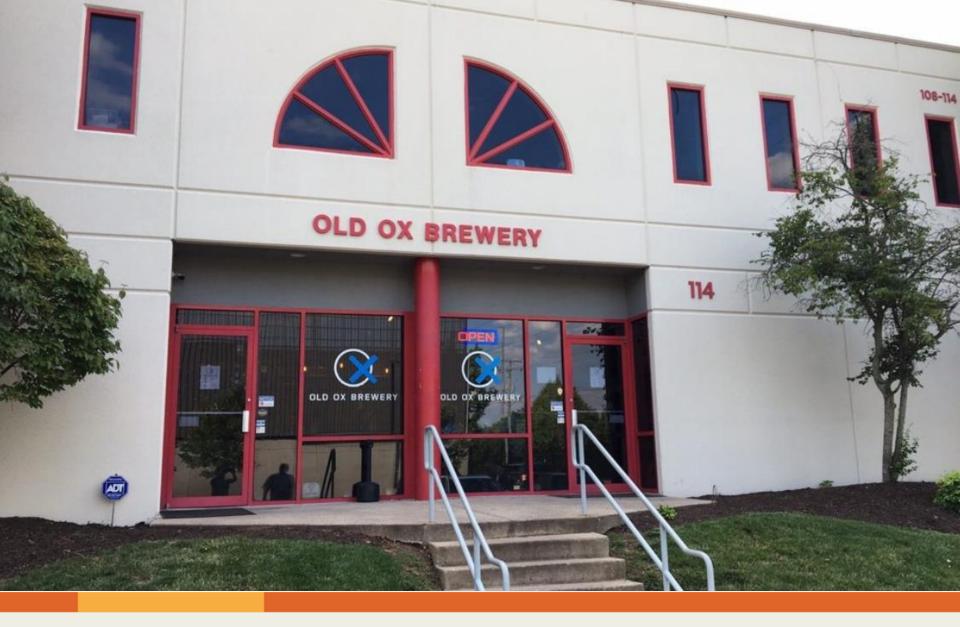

Why At a Brewery?

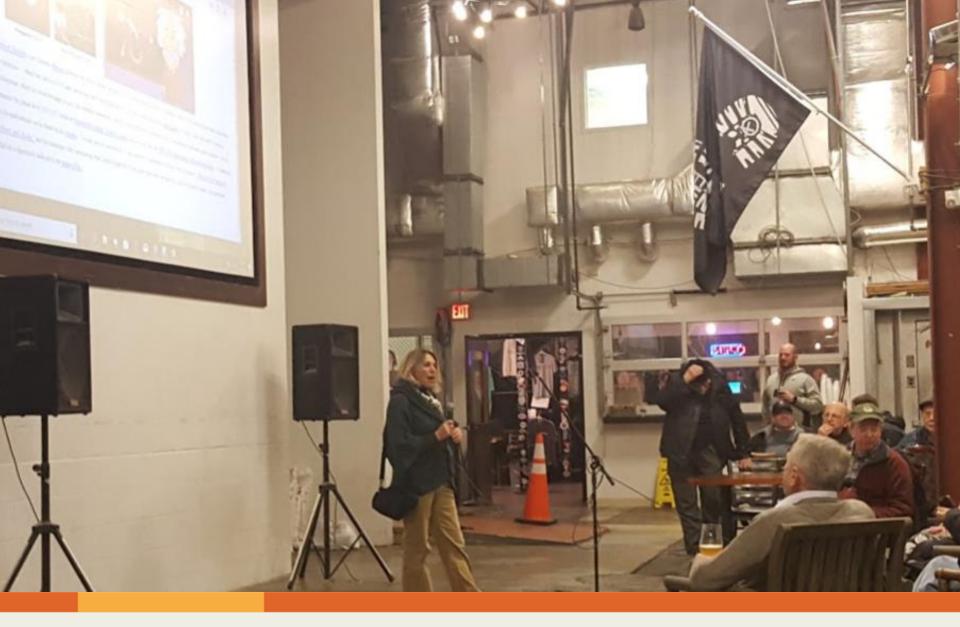

- Go where the 21+ audience already is in the science & tech corridor
- Adult audience encourages discussions of science topics and networking

Presenter	Presenter Title	Program Topic
Kristen Branson, PhD	Computational Biologist, Team Leader, Computation & Theory, Janelia Research Campus at HHMI	The Machine Learning Experience
Karel Svoboda, PhD	Senior Group Leader, Neuroscience, Janelia Research Campus at HHMI	How the Most Far Out Science Benefits Our Economy
Scott J White, PhD	Criminologist and Director of the Cybersecurity Program at The George Washington University	Human Factors in Cybersecurity
Amy J. Bastian, PhD	Chief Science Officer, Kennedy Krieger Institute and Johns Hopkins School of Medicine	Brain Health
Peter Wilczynski	Science Mission Directorate at NASA Headquarters	Science at NASA Current and Future Missions
Ulrike Heberlein, PhD	Senior Fellow, Janelia Research Campus at HHMI	Flies, Sex and Alcohol
Warren Holston	Counterterrorism Expert, Senior Officer, Central Intelligence Agency	The Dark Web
Kirk Yeager	Chief Explosives Scientist, FBI	The Bomb Detective
Bruce Kimmel, PhD	CEO, Vidrio Technologies	Tales from A Drug Developer
Kate McDole	Cellular Biologist, Janelia Research Campus	XX and XY: Guidelines or Actual Rules?
Dr. Robert Erlich	Former Chair, Physics Department, George Mason University	What If Einstein Was Wrong?

Kirk Yeagar
The Bomb Detective
FBI

As the FBI's premier bomb expert, leads U.S. and foreign law enforcement to determine how terrorist-made explosives work, and finds new ways to detect and stop them.

What Experts Are In Your Community?

- Hospitals
- Universities
- Energy and agricultural companies
- Publishing companies and authors
- Local and state officials
- Federal government

How to Host During COVID

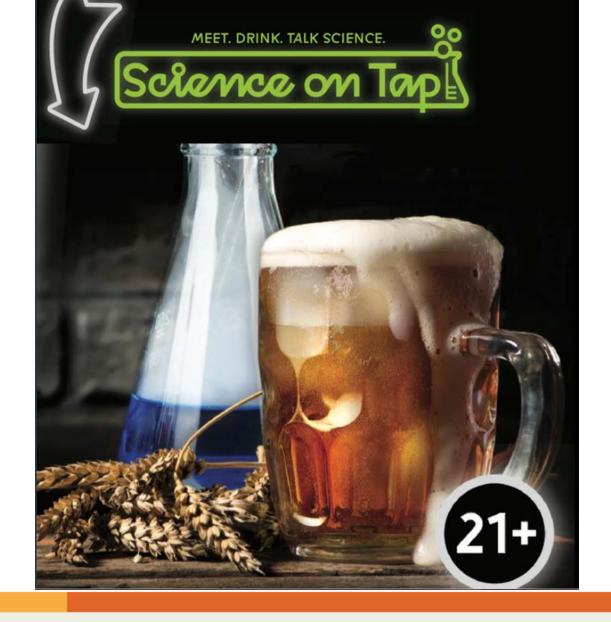

- Host it online using your own social media or virtual meeting platform
- Advantage: contact scientists around the world. You never know who will say yes until you ask!

Attributes

- Big, open seating area
- Comfortable space with food & drink
- Access to scientific experts
- Lots of Q&A and interaction
- Time for networking and mingling

Marketing Tools

- Facebook events and posts shared by all partners
- Flyers at Old Ox and library branches
- Digital displays in library branches and at HHMI
- Loudoun County Public Library program guide
- Word of mouth through Old Ox website & newsletter

Tech Business Feedback

Science on Tap is an innovative and dynamic program that extends the reach of the Loudoun County Public Library beyond the walls of their buildings to promote and nurture the high tech community. The content is excellent and engaging, delivered by subject matter experts with real-world experience. These presentations draw hundreds of people, including our RagingWire employees, customers, and partners to learn, discuss, and create. Thank you to the Loudoun County Public Library for Science on Tap and all of their programming!"

James Leach Corporate Vice President RagingWire Data Centers

RagingWire VA1 Data Center, next door to Old Ox Brewery

Feedback

Each month, attendees exclaim "Wow, Loudoun Library is so forward-thinking, keep it up!" or tell us how much they appreciate us for "thinking outside the box" and offering programs for adults they really enjoy.

Specific comments include:

- "When I saw the flyer for this program at Ashburn Library, I thought this has got to be too good to be true."
- "Dr. Yeager is great. I work at the FBI as well & have attended a few sessions hosted by him. Thank you for Science on Tap."
- "Loved the presentation! This was educational and fun while hanging out w/coworkers and friends drinking beer! Very good idea to mix education and recreation!"
- "So enjoy these programs—I am very impressed with the advances/outreach the library has been doing for the last few years—well done!"
- "So many of your presentations sound great! I'm filling my calendar as your slideshow advances! And your presenter's credentials are amazing!"
- "The talk was excellent—showed a practical intersection of economics and a concerning hard science topic."

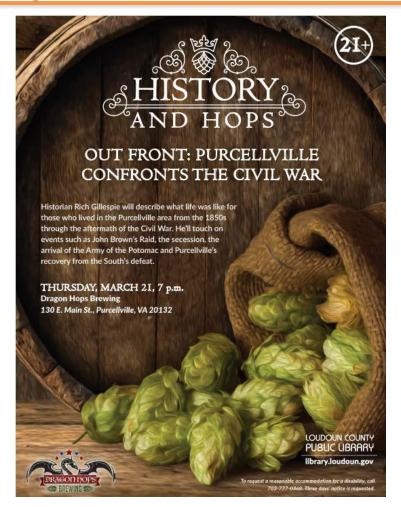

Budget

- Presenters: \$0
- Host Space: \$0
- Refreshments: \$0
- Marketing: Staff time

Spin-Offs

Spin-offs have done well and furthered LCPL's reputation as innovators, providing high-quality programs for our residents.

You Too Can Do This!

- Work to ensure good sound, displays and seating
- Partner with business carefully for a good venue and co-marketing
- Look for science, you'll find it
- Vet your speaker
- Keep trying and build over time
